

**FOR IMMEDIATE RELEASE**

**VisiInc PLC and Agilis Associates announce distribution  
and sales agreement for Vistime.**

SAN FERNANDO, CALIFORNIA and PERTH, WESTERN AUSTRALIA (June 14, 2011) [VisiInc PLC \(VZJ\)](#) (<http://www.deutsche-boerse.com>) and [Agilis Associates](#) have signed an agreement to distribute Vistime in the Enterprise Application market.

VisiInc today announced the signing of an agreement for Agilis Associates to distribute Vistime and various other VisiInc PLC products, powered by the evolutionary Visi platform, throughout North America and Europe.

The Agilis Associates Team individually have over 20 years experience in Enterprise Software Sales. The Distribution Agreement will see 5 people based in the US and 1 in Europe.

“Our experienced sales team is excited about the opportunity to distribute Vistime. We believe it has tremendous market potential, as the Vistime product has been designed to integrate seamlessly with existing product offerings of the world’s leading web collaboration and enterprise content management system vendors. Vistime and the VisiInc technologies can immediately expand these products’ capabilities to deliver tangible business benefits to users,” Eileen Sullivan, Founder and Managing Partner Agilis Associates.

This agreement signals a major push by VisiInc PLC into the global market with Agilis targeting Integrated Product Offerings, White Label and Private Label Offerings and OEM opportunities.

Revenues from the agreement are anticipated to be in the range of USD\$4m – USD\$5m for 2011.

Vistime is a multi-file format, real-time 3D viewer for retrieval, transferring, sharing, viewing and annotating virtually any type of files, no matter how large or complex, including medical imaging systems such as MRIs, scans and sonograms, over any Internet connection, including dial-up. **About VisiInc PLC**

In May 2011 VisiInc PLC announced the completion of its merger with Firmware Technologies Inc and its subsequent quotation on the Frankfurt Stock Exchange. [VisiInc.com](http://VisiInc.com)

Through it’s evolutionary Visi™ platform, VisiInc operates Vistime. Vistime is rapidly capturing global market share of major verticals such as Healthcare, Government, Engineering and Architecture, Mining, Oil & Gas, Exploration, Energy, Education, Advertising & Media and online Video Conferencing. Visi, the next evolution in visual communication, is capable of delivering solutions in both the physical and virtual environment in 3D. Vistime has been designed to integrate with the existing product offerings of the world’s leading web collaboration and enterprise content management systems, enabling vendors to immediately expand their product capabilities and service offerings through Integrated Product Offerings, White Label and Private Label Offerings and OEM opportunities. Through its unprecedented rapid visual rendering capabilities, the Vistime system ([www.vistime.com](http://www.vistime.com)) allows all end users to simultaneously view, manipulate, and explore multi-dimensional data visualizations of any file type and of any size, in real-time without any resolution degradation. The system eliminates the lag time barrier that exists with other viewers. As a result, Vistime is the first in the world to enable real-time collaboration of complex, data-rich visual files and 3D media.
